## JACK DANIEL'S ENTERTAINMENT BUTLER

PRICE TBD AT AUCTION

Good help is so hard to find these days, so we did what any group of lazy gentlemen would do: We built an electronic servant! *Stuff* teamed up with Jack Daniel's and the brainiac engineers at Electromechanica in Massachusetts to construct the Jack Daniel's Entertainment Butler. This cyber gem pours a perfect glass of JD every time and entertains your friends with a built-in flat-screen TV, a Sirius satellite radio, an iPod docking station and a DVD player. The Entertainment Butler, and everything else you see in the Gift Guide, will be auctioned off for charity as part of *Stuff's* Toys 4 Bigger Boys event in New York City. Check out [toys4biggerboys.com](http://toys4biggerboys.com) to get in on the action!
